

ROAD TRANSPORT

FRUITS • VEGETABLES

BULK • BIG BAG • PALLET BOX

FRANCE AND EUROPE

Specialised in the road transport of bulk and packaged harvest items, Magnes safeguards the supply and delivery of fruit & vegetables from the producer to the consumer.

OUR FLOWS:

- **Transfer from the producer**
 - to the processing plant
 - to the cleaning, sorting and packing station
 - to the refrigerated storage site
- **Strategy moving from the producer to the logistics depot**
- **Pallet Box collection**
- **Bulk/pallet box storage units**
 - to the supply plant
 - for packaging
- **Distribution of fresh fruit and vegetables to the wholesaler between trading centers**
 - collection, bundling/unbundling, cross-dock, shipping

OUR ASSETS:

- Available and flexible fleet to adapt to the volumes of fruit and vegetables harvested
- Amendable transport plans on D-1 to adjust to harvest uncertainties (weather, machines, etc.) and required timings
- Management of specifications for the packaging and processing sites for the agri-food industry
- Compliance with the refrigeration chain and food safety
- Proactive teams dedicated to coordinating with stakeholders

Products from market gardening and arboriculture are transported in different ways according to the very nature of the product and the given quality and safety specifications.

Our mission is to safeguard the road transport of the fruit and vegetables that are entrusted to us and to contribute to the development of our clients' businesses within their territories.

OUR AVAILABLE RESOURCES:

Flatbed

Tipper
